# DOMINANCE OVER THE YEARS

THERE IS A CLEAR CORRELATION BETWEEN THE TWO GRAPHS: PEAKS IN GOALS SCORED CORRESPOND TO AN INCREASE IN VICTORIES (E.G. AFTER 2020).

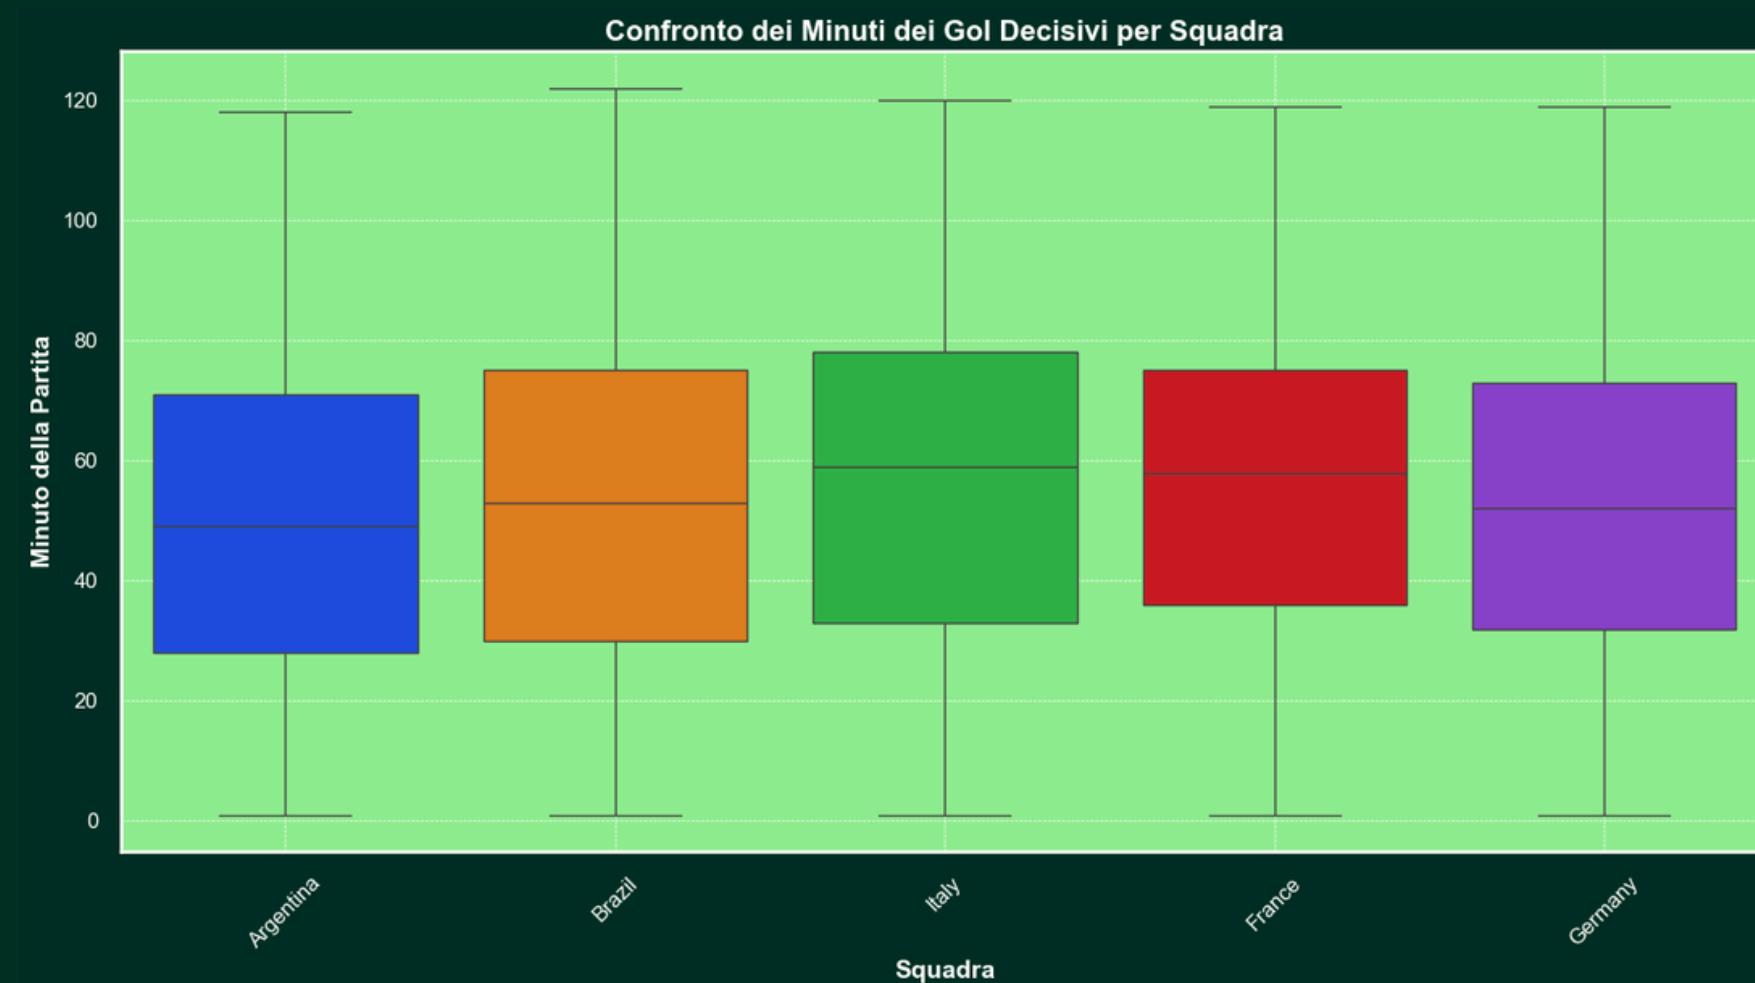

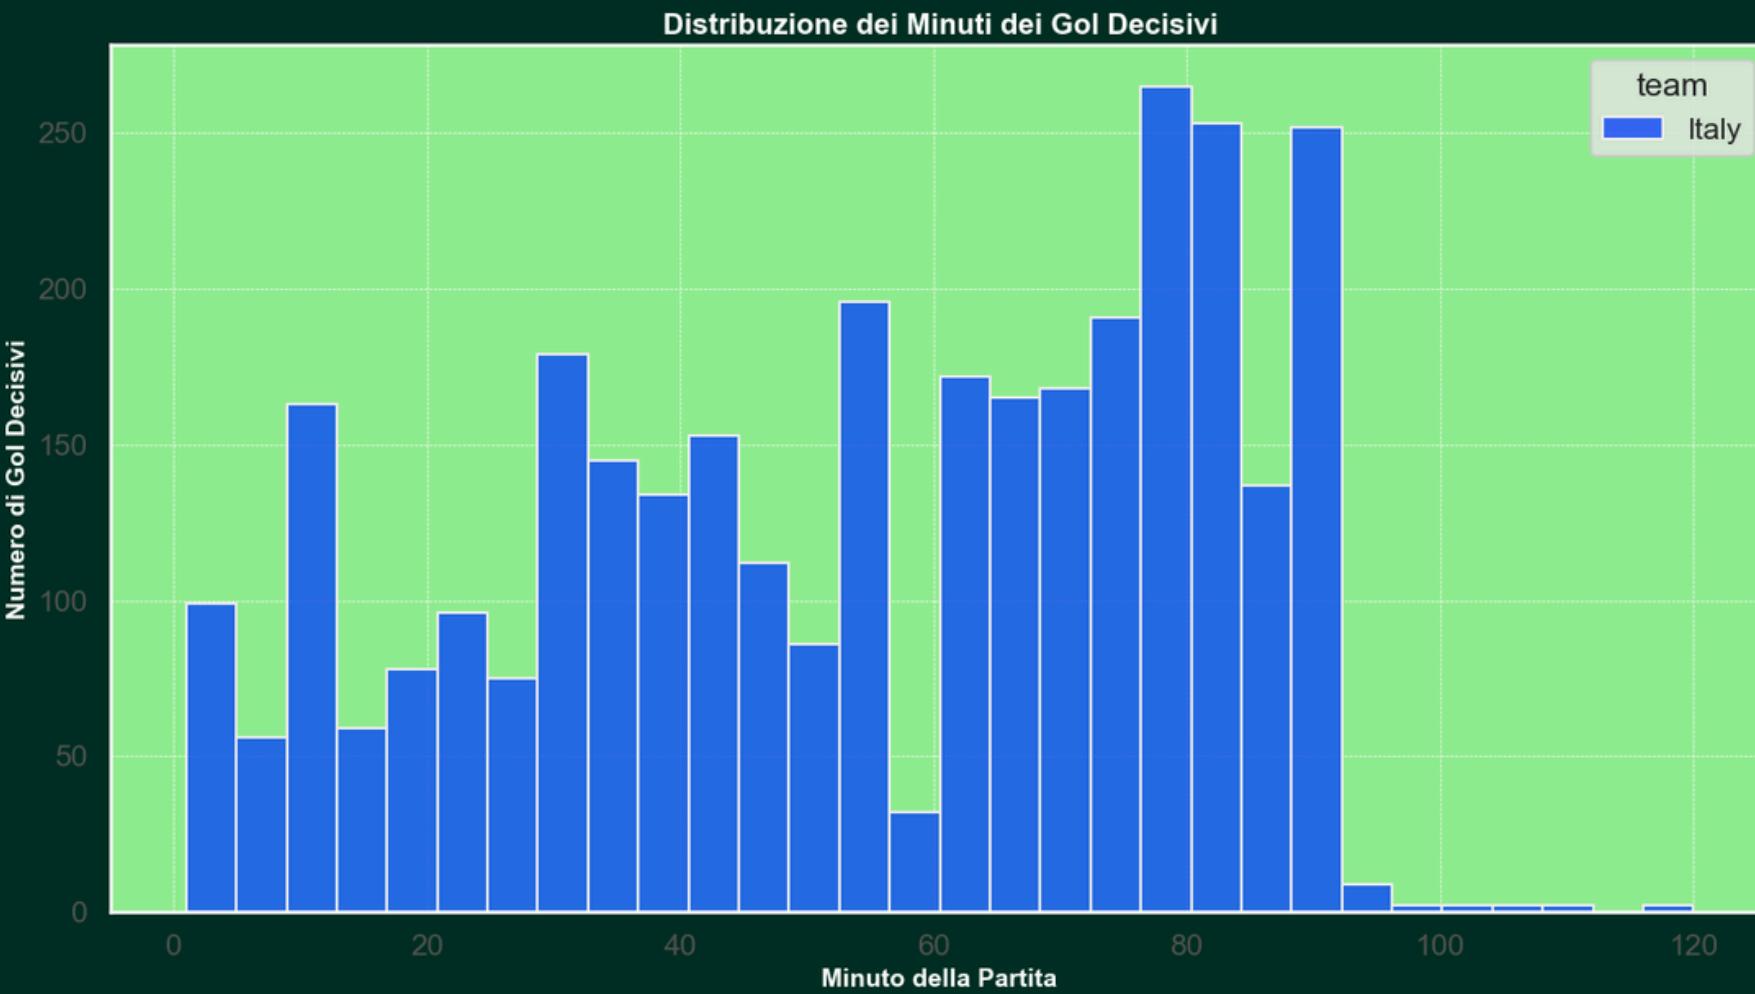

THIS INDICATES THAT A HIGH NUMBER OF GOALS SCORED IS A DETERMINING FACTOR FOR SUCCESS AS EXPECTED.

TOTAL GOALS UNTIL TODAY

720

# DECISIVE GOALS DISTRIBUTION

MOST DECISIVE GOALS ARE SCORED BETWEEN THE 60TH AND 80TH MINUTE, HIGHLIGHTING THE IMPORTANCE OF THE SECOND HALF FOR TEAMS, INCLUDING ITALY.

FOR ITALY, THE SECOND QUARTILE (25TH–50TH PERCENTILE) IS CONCENTRATED BETWEEN THE 50TH AND 70TH MINUTE, SIMILAR TO BRAZIL AND FRANCE. HOWEVER, THE THIRD QUARTILE (50TH–75TH PERCENTILE) EXTENDS CLOSER TO THE 80TH MINUTE COMPARED TO ARGENTINA AND GERMANY, WHICH DISPLAY TIGHTER DISTRIBUTIONS AROUND THE MEDIAN. THIS SUGGESTS ITALY HAS A GREATER TENDENCY TO SCORE DECISIVE GOALS LATER IN THE MATCH.

# OUR FIELD

Distribuzione dei Gol delle Principali Squadre per Minuto della Partita

ITALY SHOWS A STABLE GOAL DISTRIBUTION IN THE FIRST HALF, WITH PEAKS AROUND THE 15TH AND 40TH MINUTE.

IN THE SECOND HALF, IT SCORES MORE FREQUENTLY, WITH A DECISIVE PEAK BETWEEN THE 75TH AND 85TH MINUTE, SURPASSING FRANCE AND PORTUGAL. IN EXTRA TIME, ITALY SCORES RARELY, SIMILAR TO FRANCE, WHILE PORTUGAL IS SLIGHTLY MORE PROLIFIC.

OVERALL, ITALY STANDS OUT FOR ITS ABILITY TO SCORE IN CRUCIAL MOMENTS, ESPECIALLY IN THE FINAL PHASE OF REGULAR TIME.

# ***IN THE END WE CAN SAY...***

*“even in real life 45 and 90 minutes script exist”*
